PROVIDING SAFE & EFFICIENT SERVICE.

Envirocon is an industry leader providing full-service environmental remediation for government and private sector clients across the United States. Backed by our dedicated employees, financial strength, and owned equipment fleet, we focus on delivering safe, high-quality and cost-effective solutions to our clients' complex environmental challenges.

ENVIRONMENTAL REMEDIATION

We have safely delivered projects such as contaminated soil excavation; sediment dredging, removal and dewatering projects in lakes and rivers; closure of coal ash impoundments and basins; and construction and capping of repositories.

ECOLOGICAL RESTORATION

Our project resume includes major dam removal, river restoration, habitat restoration, and wetlands mitigation and construction.

DECOMMISSIONING & DEMOLITION

We are experienced in the demolition of coal-fired power plants, aluminum smelters, paper mills, industrial facilities, and chemical weapons plants.

AS PART OF

THE WASHINGTON GROUP OF COMPANIES, ENVIROCON IS FOUNDED ON EFFICIENTLY EXECUTING TECHNICALLY CHALLENGING PROJECTS WITH TENURED EMPLOYEES WHO SHARE COMMON VALUES OF SAFETY, QUALITY, INTEGRITY, AND COMMUNITY. WE ARE ALIGNED WITH OUR CUSTOMERS' EXPECTATIONS AND RETURN VALUE TO OUR OWNERSHIP.

Kris Kok, President

ENVIRONMENTAL RESPONSIBILITY

Protecting the environment is one of the guiding principles in how we conduct ourselves. We are committed to performing in an environmentally responsible way without negative impact to the communities we work in. This commitment is demonstrated through our environmental management program, including water conservation, reducing our carbon footprint, waste reduction and reuse, and ecological protection and restoration. We work closely with our clients to develop innovative and sustainable solutions.

SAFETY

Safety is a core value and our highest priority to our people and the communities we serve. Each employee is empowered to look out for themselves and for each other. A culture built on safety and ingrained at all levels sets the standard that we live by. Safety is more than a business commitment; it's a way of life.
